1. Introduction

Wrist Aficionado has been in the retail, wholesale trade, and modern online solution for buying & selling watches. Any watch/NFT is a big purchase & we don't think it should be overwhelming or risky. Basically, we're your watch guide. We'll help you find something new & unique for your wrist or help you leave behind something that you aren't that into anymore. Whichever solution you necessitate, we aim to ensure that you leave feeling confident you made the right choice.

Our aim has & always will be to earn the trust & satisfaction of our customers. We have taken pride in our ability to deliver the best prices, the most diverse selection & the most excellent service for well over 30 years.

This NFT digital watch collection is the first step into the metaverse where our luxurious watches will be brought to life in the digital space. As we are one of the first, if not the first, boutiques for high-end luxury watches to accept BitPay, we are excited to continue this Web3 journey into the NFT space.

2. Mission / Values

With these NFT drops, we are trying to create a Web3 community around our successful boutiques in NYC, Miami, and Aspen. As we cultivate a club of high-net-worth watch collectors IRL, we also want to bridge our high valued network beyond the bounds of web2 and into the metaverse.

Our Values:

We Seize Opportunities to grow & change the world around us through hard work & innovative solutions.

We Cultivate Relationships that elevate others above ourselves through our thoughts, words, & actions.

We Magnify Moments to build others up & change the course of lives, even if just marginally.

We Pursue Excellence by delivering the most value possible & never becoming stagnant.

We Promote Stewardship by giving of our talents & resources to leave a lasting impact on this earth.

3. Road Map

Part I

The first Wrist Aficionado (WA) NFT drop will be "Hyper Car" inspired. It will have a quantity of 500 NFTs with five (5) tiers (Limited, Unique, Rare, Exotic, & Ultimate). Once you buy a WA NFT, you will become a watch club member.

Part II

Once the mint is sold out, Wrist Aficionado will throw a WA-sponsored event for all watch club members. We will also give our loyal club members three (3) watches from our IRL boutiques. As the event takes place, a second watch collection will be in development.

Part III

After our WA NFT sponsored event, we will launch a watch flipping course in our private Discord for all of our club members. A \$500 coupon will accompany this educational course so that all club members can buy WA Boutique items at a discounted price.

Part IV

As our community builds, we plan to give back more and grant a lucky watch club member free seats to specific MLB & NBA Games. We will also look to develop an Augmented Reality (AR) platform to see your Wrist Aficionado watch NFT IRL.

Part V

Virtual Wrist Aficionado Boutique ???

4. Utility

1. Holders are granted access to all Wrist Aficionado Events
2. Holders will have access to watch releases at exclusive prices before being publicly released.
3. Holders will own the IP rights to their watch
4. 3D files of each watch are given to the watch holder
5. Private Discord
 - a. Members-only watch DAILY DROP in discord
 - b. Alpha on watch flipping
 - c. Weekly AMA/podcast
 - i. Guest appearances
 - ii. Watch news
6. Auto White List for owners with 1 to 5 watches
7. Free mint on the next project for owners of 10+ watches
8. Seats to MLB/NBA games
9. Holders will have the opportunity to be a part of the Celebrity Piece Uniques.
10. Each minted watch can be worn in all metaverses.
11. Dynamic NFT - open-ended updates on the artwork and data

- Custom Watch Session

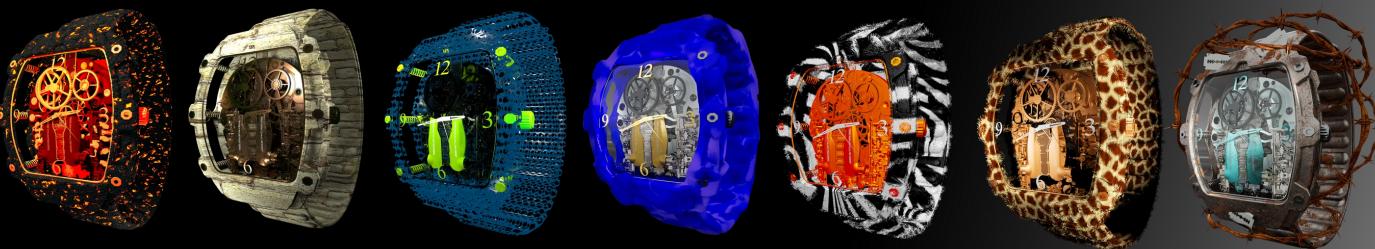

LIMITED 500

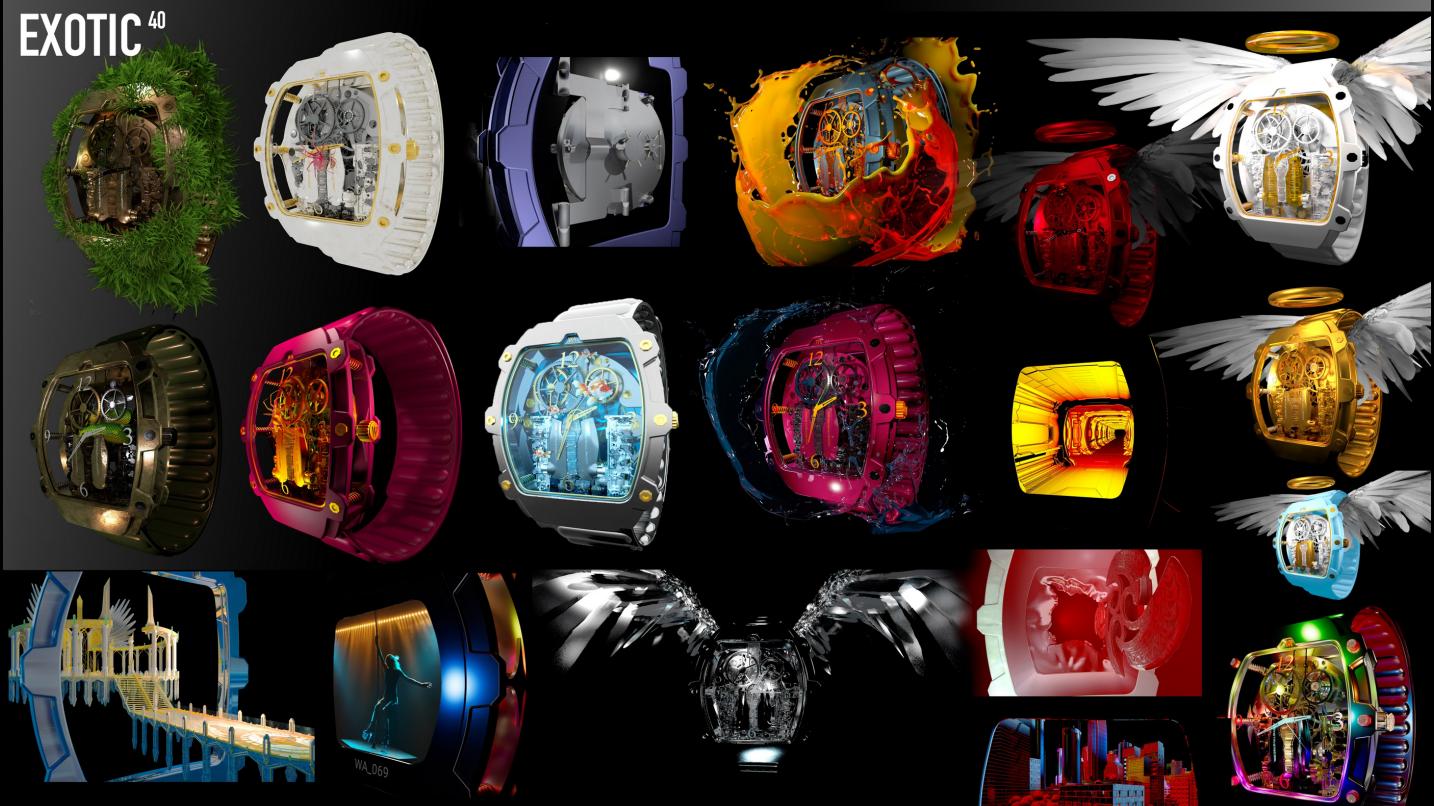

UNIQUE 350

RARE 100

EXOTIC 40

ULTIMATE

6. Dev

This NFT has a UUPS upgradeable ERC721 contract with a dutch auction, merkledrop, and public/private sale functionality.

We heavily optimized the contract to minimize gas usage, created an end-to-end test suite and had a top security specialist audit the code in the space. Our project's devs work for Shipyard, an advanced fellowship program for training in solidity and web3, backed by some of the best founders, operators, and investors in web3.

7. Use of Proceeds

Royalty Founders - Eddie, Vadim, Mike

- 35% Mint Sales + 3.5% Secondary Sales

Web3 Community, Member Benefits, Rewards

- 20% Mint Sales + 2% Secondary Sales

Marketing and Promotions

- 5% Mint Sales + .05%

Dev + J Digital + Back End + Audits + Smart Contracts + Front End Dev

- 30% Mint Sales + 3% Secondary Sales

8. Team

Eddie (Founder) has been in the Watch industry for 15 years. Together with Vadim, they started Wristaficionado in 2017, opening the first brick and mortar location in 2019 off of Madison Ave in NYC and then the second location in Miami Beach at the Setai Hotel in 2020. Wristaficionado started accepting crypto payments in 2019 and quickly realized that crypto and web3 would be the future of innovation. Eddie's goal is to merge the luxury watch space into web3 and become the premier watchmaker of the Metaverse.

Mike (Founder) has been passionate about watches for over three decades. An entrepreneur since a young age, Mike has created multiple businesses from inception that have sold for millions.

In 2017, Mike started a client-business relationship with Wrist Aficionado. After multiple deals with the company and gaining an appreciation for their transparency, honesty, and professionalism, he became a company partner in 2020.

Vadim (Founder) has been in the watch industry for over 25 years. Vadim started his career with Jacob & Co. As his list of clients grew, he decided to open up Wrist Aficionado in 2017. Within two years, he quickly opened up two stores back-to-back in NYC and Miami alongside Eddie. Being in the luxury watch industry for many years, Vadim realized that web3 would be the future of luxury. His current goal is to incorporate his vast knowledge of the luxury watch space and merge it into web3 with innovation never seen before. Vadim plans to take the aspects of his IRL luxury watch boutiques and incorporate the same elements when developing his space in the metaverse.

J. Digital (artist) is an award-winning artist with over 25 years of creative exploration in prime-time network campaigns, movies, and national commercials. Work includes art on the Emmy Awards, Lord of the Rings game, Warner Bros. Sega, Toshiba, Red Bull, Monster, Fox Sports, Ford, Toyota, Discovery Network, the LA Clippers arena, Mattel, Barbie, Ikonpass, to name a few. Design, animation, and future thinking trendsetting artistry have been the trademark of his work.
